RE: AQD #76 and #79 Start-up and Stack Test Delay

Dear Tony:

As verbally relayed to the Division, the start-up of AQD #76 (Primary Crusher) and AQD #79 (Ore Transfer) has been delayed from the original June date. It is expected that start-up will be during the first week of August.

Stack testing is **tentatively** scheduled for the week of August 14, 2000. As described in my June 9, 2000 correspondence to you, EPA Reference Method 5/202 will be conducted on AQD #76 and EPA Reference Method 9 will be conducted on AQD #79.

If you have any questions, please contact me at (307) 872-6571.

Sincerely,

Dolly A. Potter
Environmental Services Supervisor
